

Keep Your Business Healthy During Flu Season

Because of the COVID-19 pandemic, reducing the spread of respiratory illnesses, like flu, this fall and winter is more important than ever. Make sure your janitorial provider has a program in place for both cleaning and disinfecting. While cleaning removes dirt and soil from surfaces, disinfecting has the ability to kill viruses.

Jani-King's Disinfecting Services for Flu Season and Covid-19 includes;

Electrostatic sprayer, pump or battery sprayer, or manual spray process

Use of hospital grade, EPA registered disinfectants

Adherence to CDC guidelines including Personal Protective Equipment (PPE)

High traffic touch areas for disinfecting include items such as;

Light switches

Handrails

Elevator buttons

Door handles & entryway doors

Restroom faucets & dispensers

Phones, keyboards & mouse devices

Contact the professionals at Jani-King today and better protect your employees, customers & business.
