

We believe 2022 will offer you a great opportunity to step out and invest in yourself. When starting a new franchise, you want to make sure you're giving yourself the best chance to maximize your opportunity by selecting an industry that is poised for growth and is proven to have long-term success. Commercial cleaning franchises remain at the top of both lists.

01 LOW COST

Startup costs for many businesses can be extremely expensive. This is not the case for commercial cleaning franchises. Startup fees are relatively low and may be partially covered by your own tax refund. The initial franchise costs go a long way and include Jani-King's extensive training program and account offerings.

UZ BENEFIT FROM THE WORK

With a Jani-King commercial cleaning franchise, you are in control. Grow your business to your ideal size. With an energetic approach, hard work, and good customer relations, our Franchise Owners can have an enjoyable business, create a tradition for their family, provide welcome jobs for people in their own community, and work toward their ultimate goals.

RAPID GROWING INDUSTRY

Since the pandemic, businesses across all regions have placed greater attention on cleaning and disinfecting services. The commercial cleaning industry flourished before and the demand for cleaning services keeps climbing, making this a high-demand business.

NO BRICK & MORTAR LOCATION

Turn your tax refund into a business enterprise with a franchise that doesn't require a brick-and-mortar location. With skyrocketing rent prices throughout the country, why spend that money when you can run your commercial cleaning franchise from your own home?

Jani-King offers franchisees new accounts to service based on their investment level. In addition, Jani-King's local sales and operations teams provide support to franchisees on an ongoing basis. This level of sales and support allows franchisees to focus on running their business.
